## Landscaping Firm Sprouting Roots in Neville Island

*Denison Looks to Expand to Pittsburgh*

Denison Landscaping & Nursery Inc. of Fort Washington, MD, is attempting to expand its market area with the lease of a nearly 1-acre land parcel at 4990 Grand Ave. in Neville Island, PA. Despite current economic conditions, Denison signed a one-year lease to test the Pittsburgh market for growth potential. Should it work, the company will pursue a longer-term deal.

One of the Washington, DC/Baltimore metropolitan area's largest landscaping contractors, Denison serves both commercial and residential customers.

The company provides design and build capabilities for landscaping, as well as lighting, drainage, erosion control, maintenance and snow removal. Denison also operates a 40-acre garden center and nursery in Fort Washington.

John Lisowski of Grant Street Associates represented Denison. R.T. Walker of Beynon & Co. represented the landlord, FSC Properties.
